

# SINEAD HALPIN EVENTING

## About Sinead

Sinead Halpin is a normal 28 year old, she enjoys her friends, family and is devoted to her career. A slight difference in Sinead's life is that she is on a fast track to representing her country on the international stage of Three Day Eventing, *want to come?*

Recently Sinead has been named to the United States Equestrian Team's High Performance List. In developing this list the USET selectors create a pool of people they believe have the talent and determination to not only represent the United States, but bring home medals. By becoming part of this list Sinead joins an elite group that includes some of the legends in our sport as well as the future of it.

*"It's exciting to watch such a promising rider make her way through the ranks. Sinead is one of the most talented and committed riders in the sport of eventing today. She's a go getter and a winner."*

David O'Connor, US Olympic Gold Medallist, President of the USEF and Head Coach of the Canadian Olympic Eventing Team

It has been an exciting journey up to this point! Sinead is an active ICP instructor and a board member of PRO (Professional Riders Organization). She travels up and down the east coast competing sale horses plus a string of sponsored horses, as well as giving back by participating in demos, teaching clinics and course walks.

It takes thousands of dollars in pure cost and product to achieve the steps necessary to compete at the elite level. Sinead is looking to build new relationships with companies and individuals who want to join her team and *go along for the ride* to the top of the sport!

## What Sinead Can Do For You

Sinead is highly visible in the eventing world. Not only does she compete at the highest levels of the sport, but she also has many students and fans. She is charismatic, outgoing and highly professional. Some ways that she can help promote your product and services include:

- **Use your product. And be in your ads.**
- **Wear your product logo while competing.**
- **Hang your advertising banners at competitions.**
- **Be a spokemodel for your product. (Sinead is very well spoken and never at a loss for words)**
- **Display advertising decals on her trailer.**

These are just some of the conventional ways that she can help you promote your brand. We can also brainstorm unusual and creative ways to help promote your products.
